

## Local Services for Local People

- Emergency out of hours services to provide special medicines for the terminally ill
- Emergency hormonal contraception services to reduce the incidence of unwanted pregnancy
- Blood pressure and cholesterol monitoring
- Helicobacter pylori testing
- Diabetes testing and monitoring
- Collection and delivery services
- Health promotion
- Weight management services
- Supervising consumption of Methadone and provision of Needle Exchange Schemes for drug users
- Provision of flu vaccinations
- Travel advice
- Building the Community Pharmacy Partnership Projects

It is hoped that through time many of these services will be commissioned by the health service from all community pharmacies across Northern Ireland.
