**Tuesday 15<sup>th</sup> April, The Manor House, Enniskillen BT94 1NY**

**Wednesday 16<sup>th</sup> April, Riddell Hall, Queens University Belfast BT9 5EE**

Dear Community Pharmacist,

You are invited to participate in a unique training programme designed to help you and your patients get as much benefit as possible from Respiratory Medicines Use Reviews (RMURs).

**Making the Most of Respiratory Medicine Use Reviews** is a training programme to help pharmacists gain greater familiarisation with a range of currently available inhaler devices. It has been designed in response to feedback from pharmacists about the need to build skills and capabilities in assessing and improving patient technique when conducting RMURs.

The programme has been developed as a service to community pharmacy by members of the ABPI NI Respiratory Therapy Group, NICPLD, CPNI, UCA, Asthma UK Northern Ireland and the British Lung Foundation.

### **Training is FREE to attend and will contribute to your Continuing Professional Development (CPD) Record**

The programme will be rolled out via one event per HSC Trust across Northern Ireland over the coming months. To ensure that attendees receive enough personal attention to benefit fully, numbers will be limited to 100 pharmacists per event on a first-come-first-served basis

Each event will begin with an opportunity to hear from Asthma UK or the British Lung Foundation about how patients value the relationship they have with their pharmacists. You will then have the chance to work in small groups with experts on a wide range of inhaler devices, gaining hands-on demonstration practice and advice on assessing patient technique. You will also be able to explore and request items from a range of resources available to support you and your patients.

**To secure your place at your local event, please register for this workshop as soon as possible on the NICPLD website [www.nicpld.org](http://www.nicpld.org). An outline agenda is shown below, and we look forward to seeing you there.**

### **Agenda**

6.30pm	Registration and Buffet Supper
7.00pm	Introduction and Welcome
7.05pm	Medicine Use Reviews: Building the Patient /Pharmacy Relationship Joan O'Hagan - Asthma UK NI/Nessie Blair - British Lung Foundation (BLF)
